SIX Swiss Exchange welcomes new exchange traded fund issuer ETF Securities

SIX Swiss Exchange is delighted to welcome ETF Securities as a new issuer of exchange-traded funds (ETFs). The London-based provider was formed in 2003 and became internationally known that same year after creating the world's first listed exchange traded product (ETP) on physical gold. ETF Securities launched its first ETFs in 2008 and is among the European leaders in ETPs, which are collateralized bearer debt securities that track an underlying.

Alain Picard, Head Product Management at SIX Swiss Exchange, said, «We would like to extend a warm welcome to ETF Securities as a new issuer on SIX Swiss Exchange. The eight ETFs newly listed on SIX Swiss Exchange represent an exciting addition to our existing range of ETFs, bringing the total number of products listed in our ETF segment to 880.»
